## Experience

Evernorth Health Services  
Software Engineering Advisor  
February 2025 - Present (1 year 6 months)  
Hyderabad

CoreTechnology – Audit Companion

January 2026 – Present

Project: Audit Companion | Team: CoreTechnology | Tech Stack: Node.js, Python, AWS, Gen AI/LLMs

Developing Audit Companion, an AI-powered auditing platform designed to streamline and

automate internal audit processes across Cigna & EverNorth

Designing and implementing backend RESTful APIs and microservices to support audit

workflow management, findings tracking, and remediation recommendations

Leading DevOps setup and CI/CD pipeline configuration, ensuring automated builds, testing,

and deployment workflows for the project

Conducting peer-to-peer code reviews to enforce coding standards, improve code quality, and

ensure best practices across the team

Mentoring junior and mid-level engineers on architecture patterns, coding standards, and

technical problem-solving

Collaborating with cross-functional teams including Compliance, Risk, and Internal Audit to

translate business requirements into scalable technical solutions

Claims – Cigna & Evernorth

February 2025 – January 2026

Team: Claims – Cigna & Evernorth | Tech Stack: Node.js, Python, AWS

Developing and maintaining RESTful APIs for the Claims team powering Cigna & Evernorth

healthcare and healthservices platform

Migrated Java to Node, for claim user profile

Executed Python version upgrades and modernized dependency management from pip to Poetry

Implementing new features and enhancements to support evolving business requirements

Identified and analyzed randomly occurring production issues, benchmarking improvements to

enhance system reliability

Collaborating with cross-functional teams to ensure seamless API integrations

Career Goal: Seeking to transition into core AI/ML development teams – backed by AWS Certified AI

Practitioner, AWS Certified ML Associate, and Gen AI Technologist (Cigna AICOE) credentials – to

apply proven expertise in building innovative AI-driven solutions that deliver organizational impact
